

NOTICE OF 2016 MASON STREET RECONSTRUCTION

The City of Mason will begin reconstruction on the following streets in the coming months:

- South Cedar Street and Ash Street on April 11, completion on April 29
- East Street on April 11, completion on May 9
- Rogers Street and Oak Street on April 11, completion on June 18
- Cherry Street on May 18, completion on June 29
- Park Street and Oak Street on June 20, completion on July 25

PLEASE NOTE: All construction dates depend on the weather and may vary.

During construction you will be able to get to your driveway most of the time – occasionally a drive may be blocked for a few hours or possibly overnight. We will try to avoid this as much as possible.

The project includes a new water main on East Street, on Oak Street and Park Street, and on Rogers Street. There will be a new sanitary sewer constructed on Cherry Street. When we switch services over for the new water mains and sanitary sewer, you will have an interruption of – normally – an hour or two. We will try to coordinate with each of you individually when that time comes.

Emergency vehicle access will be available at all times. Also the City's Inspector will be on the job and visible when work is being completed.

MORE QUESTIONS?

Please consider attending one of our Open Houses on this project:

City Hall | 201 West Ash Street | Second Floor Training Room

- Wednesday, April 6th, 8 – 9 am
- Thursday, April 7th, 5 – 6 pm

We know construction is noisy, dusty, and very inconvenient. We will do our best to keep the inconvenience to a minimum but please consider assisting your neighbors when possible with things like driveway sharing.

Thank you for your patience and understanding. For questions, please contact:

Deborah Stuart, City Administrator (517-676-5242 | deborahs@mason.mi.us)

Ken Baker, DPW Director (517-676-1319 xt 1 | kenb@mason.mi.us)
