

Addendum # 1 for the Sycamore creek bid for the City of Mason.

The City of Mason will be reducing the scope of this project to only cleaning the creek from the outfall at the wastewater plant to the ISD lift station instead of going to the north city limits.

Please see the attached updated specifications page with the changes in red.

Also included in this change is adding in the requirement that if any damage is done to the river walk trail or cemetery drives the contractor will have to repair the damage.

Please include these changes in your total project.

SECTION 1

2018 SYCAMORE CREEK CLEANING SPECIFICATIONS

PART 1 - GENERAL

1.01. DESCRIPTION

- A. This section covers the 2018 Sycamore Creek Cleaning.
- B. The Sycamore Creek is to be cleaned from 345 N. Jefferson St (POTW) North, to **the ISD Lift station.**

1.02. SCOPE OF WORK

- A. Remove all the trees and brush that have fallen into the Sycamore Creek.
- B. Remove any trees and brush restricting the flow of the Sycamore Creek.
- C. The removed trees and brush are to be placed on the ground away from the Riverwalk Trail and the Sycamore Creek's banks.
- D. Removed trees and brush are to be placed on the ground as if they had fallen naturally. Trees and brush are not to be placed in piles.
- E. Contractor will provide all the equipment and labor to complete the project.
- F. Contractor will provide all the supervision to complete the project.
- G. **Contractor is responsible to repair any damage to the river walk trail or cemetery drives.**
- H. **Contractor will be responsible for restoration of any mowable property along the river walk trail or cemetery drive.**

- END OF SECTION -
