

**INSTRUCTIONS FOR APPLICATION FOR PERMIT TO WORK IN THE CITY  
OF MASON STREETS AND RIGHT-OF-WAY**

The permit authorizes the resident or qualified contractor to work in the public right of way of the City of Mason. Common examples, although not totally inclusive, of the type of work are drive way approaches, sanitary sewer leads and water services. Contractors performing work on the underground utilities need to be bonded and insured, and licensed with the City. If there are any questions, contact City Hall at 517-676-9155, or the Department of Public Works at 517-676-1319.
